• Haruki is a very responsible and knowledgeable TA. While he had no obligation to do so, he stayed for over 3 hours after his office hours to help our group figure out the issue with our code. We appreciate his commitment to the students greatly!

• Haruki is very approachable and knowledgable on the subject. We were running into some issues for setting up our VM on M1 machines and he went out of his way to ensure the issue was solved. He'd also stay late after his OH to ensure that all student questions had been answered, even though he was not obligated to do so at all. We really appreciate his commitment!

• Give this TA a raise.

• Thank you!

• Thanks

• Thank you Haruki!!!!

• Haruki is very helpful and responsible. He solves students' problems effectively and efficiently and greatly helps students to understand the course materials.

• Good person, willing to hold extra OH

• LOVE HARUKI. he has the best vibes and he's so nice. i wish he spent a max amount of time per-person in OH, as it was a little confusing wondering when he would help me. otherwise love him
